

THE HISTORIC SARANAC LAKE ENDOWMENT

In December of 2000, Historic Saranac Lake established an endowment fund at the Adirondack Community Foundation. The fund has grown to a balance of over \$550,000 in 2026.

In honor of HSL's Architectural Historian Mary B. Hotaling, we established a new long-term investment fund in her name in 2026. The fund at Mercer Advisors / Long Run Wealth is valued at \$75,000 in 2026.

Our goal is to build our long term investments to \$2 million. Assuming a 5% return, the endowment will support ongoing public programs, collections care, and facilities maintenance, while providing long-term security.

HSL

The HSL Legacy Society

The HSL Legacy Society was created to honor those individuals who support Historic Saranac Lake by remembering HSL in their estate plans through their wills, beneficiary designations in their retirement accounts or life insurance policies, charitable gift annuities, charitable trust, and other planned gifts, or by donating to our long-term investment accounts.

By securing our financial future, we will continue to care for the Saranac Laboratory and Trudeau Building, using the buildings as a center from which to collect, preserve, and interpret the unique scientific, architectural, and cultural history of Saranac Lake. A legacy gift to HSL will help to assure our independence, quality, and continuity in the region.
